Day 1

Itinerary

Sakkara was the main necropolis of the old kingdom era. It is a great archeological site where the famous and multi-titled architect Imhotep built the oldest pyramid in Egypt. The first stone structure is 4800 years and was erected in the form of huge solid steps on top of each. (The name Step Pyramid is quite suitable). you will learn in the complex the step pyramid the development of the royal tomb structure.

Your tour guide will accompany you inside one of the tombs of the nobles (tomb of Kagmini) to see murals reflecting daily life activities in ancient Egypt. Moreover, you have the chance to enter the pyramid of Titi, where you can see the oldest form of the pyramid text on the chamber walls (4340 years old).

The next stop will be at Dahshour, this archeological site is five miles away from [Sakkara](#). There are three pyramids in this untrodden place: the Bent pyramid, the North or Red pyramid. Both belong to the pharaoh Snefru, the founder of the 4th dynasty while the third pyramid belongs to his wife Queen Hotep Heres.

In this place, you will visit the Bent Pyramid, which was the first try to develop the shape of the Step pyramids. This pyramid looks fascinating with its two-level form and its beautiful soft casing layer. Move around this pyramid and have a look at the small pyramid of the queen.

Then, stop at the Red or North pyramid. This one is the first true and complete pyramid in ancient Egypt. You will be told about the development of the royal tomb structure in the Old Kingdom. You can enter the chamber of this pyramid, which is quite an experience to go through the narrow tunnel to the chamber.

At the end of the tour, drive back to your hotel. Book now and Enjoy our [Egypt day trips](#).
