Day

### Itinerary

Your personal tour will include a certified Egyptologist so this experience can commence either at the dock or the hotel. In order to make this a different and historic travel experience, you can communicate the amount of time you spend in each site or interesting place.

Out of all the amazing facts in this tour, Alexandria is the second-largest city in Egypt and was the center of the Greco-Roman empire. This city was founded in 312 B.C by a famous military commander known as Alexander the Great. Your quest begins in the ancient Kom El-Shokafa Catacombs, hidden beneath the intricate masterpieces of Roman and Egyptian artists. Creating stunning designs brought those artists fundamentally different by their origin but equally talented. Once you step down into these tombs, there comes the Hall of Caracalla, a long-forgotten ancient artifact encased deep within the womb of earth.

Once we come back to the surface, we will behold the striking contemporary design of the Alexandria Library. Inspired by a beautiful Norwegian design, this sight is quite different from all other ancient sites found in Egypt. The library building is one of the most exceptional structures globally: it accommodates virtually every publishing book, Egyptian history displays, and even a substantial number of very expensive historical books (at an extra fee).

Your travel experience finally comes to a conclusion with the standing Qaitbay fort, which is originally from the Great Lighthouse of Alexandria. Such a fantastic day with so many activities, so prepare yourself for lots of thoughts in your head because you will be going back to a hotel in Luxor.
