## tour.overview

In Your Egypt Tours travel agency, we have a strong belief that travelling can make a better world for everyone, especially for those with disadvantages like disabled people and deaf people. Besides organizing accessible tours for disabled travelers from different countries, we also arrange signing tours for deaf & mute travelers worldwide.

We often come along in this kind of trips to help our deaf guests to enjoy their time. Our guide knows the signs and deaf travelers can read his lips in English so we can communicate quite well. They are deaf and mute but they like to communicate more than the hearing. We keep talking a lot about everything.

Our guides focus a lot when talking with them. We have to try to hear and understand their sounds, read their lips, and see their signs and gestures. We do our best so that their experience is an exceptional one.

In this tour package trip throughout Egypt, we had a great time to share our stories, learn about Egyptian cultures and history, explore the cities and beautiful spots and enjoy good food and company. Enjoy the crystal water of the Red Sea. We did everything like in a normal tour for hearing people.

With your [Egypt Tours](#), everyone in the world, whatever the disability is, will have a great experience of Egypt.
