A short drive to the city side of the plateau finds you standing at the feet of the [Sphinx](#), for thousands of years the

enigmatic symbol of Egypt. The Great Sphinx, measuring 190 feet in length and 65 feet high, still stands as centurion over these magnificent royal tombs. This monumental landmark was carved out of a single piece of rock in the shape of a lion with a pharaoh's head. After your tour of the Giza Pyramids, you will drive to [Sakkara](#), which was built in 2650 B.C. and is home to Egypt's oldest pyramid. Your guide will provide a brief history of the famous Step Pyramid and you will have free time to walk around. Your final stop is [Memphis](#), the ancient capital of Egypt. Monuments,” which runs from Abu Simbel downriver to Philae (near Aswan). The twin temples were originally carved out of the mountainside during the reign of [Pharaoh Ramesses II](#) in the 13th century BC, as a lasting monument to himself and his queen Nefertari, to commemorate his alleged victory at the Battle of Kadesh, and to intimidate his Nubian neighbors. However, the complex was relocated in its entirety in 1968, on an artificial hill made from a domed structure, high above the Aswan High Dam reservoir. The relocation of the temples was necessary to avoid their being submerged during the creation of Lake Nasser, the massive artificial water reservoir formed after the building of the Aswan High Dam on the Nile River. Abu Simbel remains one of Egypt’s top tourist attractions. With your qualified Egyptologist as your guide, you will enjoy a personalized visit to the temples of Abu Simbel. With its four rock-hewn pharaohs, your guide will explain the history behind this magnificent site, including how the temples were discovered by accident in 1813.
