Day 1

Itinerary

[Your Egypt Tours](#) will take you to enjoy a trip to the Temple of Kalabsha which has been dismantled and re-erected on a hill near the High-Dam site (Western Bank). This temple was originally built by Toutmosis II and Amenophis II at Kalabsha, 40 miles south of Aswan. It was restored during the Roman conquest.

Follow up with a visit to the Nubian Museum, featuring exhibits and artifacts from the surrounding sites such as the High Dam. The museum is a must for any visitor to Aswan. The architecture of the Museum and the enclosure walls are intended to evoke traditional Nubian village architecture, as it was along the Nubian Nile before the region was flooded by Lake Nasser.

Your qualified Egyptologist guide will show you some of the most important artifacts before allowing you free time to explore the museum at your leisure. The building is set within a landscape on graded levels, including a sequence of waterfalls. When the waterway reaches the lower part of the garden, it divides into 2 branches to surround an open-air stage and amphitheater where already many local and foreign groups have performed. The remaining 43,000 square meters have been planted with palm trees, flowers, and climbing plants, spread over natural rocks.
