tour.overview

Each day the sun sets on the bustling city of Cairo, and the famous pyramids on the Giza plateau, south of Cairo, are absorbed into the night sky. These colossal structures are never out of sight completely, as they reawaken at night during the magnificent Sound and Light Show. Thousands of years have passed since the Pharaohs walked the Earth

Day 1

Itinerary

an unforgettable evening of entertainment in Cairo, the world-famous Pyramids Sound, and Light Show in Giza, You'll hear the story of Egypt as seen through the eyes of the Sphinx over the ages, and see

the legendary pyramids lit up under the stars. The Sound and Light Show at the Great Pyramids takes place on the Giza plateau, around 30 minutes from Cairo. The one-hour show begins with the illumination of the Sphinx, which narrates the history of the pyramids and their builders. Using laser beams and light projections on the walls of the Mummification Temple, desert sands, pyramid walls, and the Sphinx itself, a condensed story of Egypt unfolds. The accompanying soundtrack complements the surroundings and the voice of the Sphinx is suitably dramatic and mysterious! After the show, your driver/guide will meet you at the gates of the complex to escort you back to your hotel. With your transportation on this tour, you will travel directly between your hotel and the Sound and Light Show.
